To Shareholders of Twin Shores:

We have developed a Tin Shores website which provides information and current news items pertaining to park activities. This site ALSO includes secure pages with information for Shareholders only, including the same type of contact information that is now found in the printed directory. We are requesting your consent to the posting of this contact information on our secure pages as well as you accepting this form of communication for minutes and other items of interest via the web page. You will have a login as well as password for accessing these secure pages.

This process will benefit the Association with a large reduction in expenses for postage, paper and printing as well as a reduction in the volunteer effort necessary to provide various communications to the membership.

Please complete the following:

I/we consent to (check one or both as appropriate):

_____ the posting of my/our contact and other information items such as minutes of meetings etc. on a secure page of the Twin Shores website.

_____ Twin Shores provide notifications and information through email rather than US Mail or other delivery services,
